About us

Founded in 2023, Mioli specializes in supply high-quality cat litter designed to ensure hygiene, comfort, and effective odor control. With expertise in raw material sourcing and mineral processing, we deliver reliable, high-standard products that provide a clean and convenient experience for both cats and their owners.

Aiming to provide high-quality cat litter to customers in both domestic and international markets, Miooli continues to strengthen its position in the industry through modern production standards and a commitment to excellence. Our cat litter processing facility, supplied by some of the finest bentonite mines, and efficient logistics, enabling us to deliver consistent quality across global markets.

With advanced production and controlled processing systems, our facility ensures stable supply capacity and adherence to strict quality requirements. Supported by a dedicated quality control and R&D team, we continuously improve our products to meet the expectations of distributors and consumers worldwide.

Miooli cat litter is produced using premium-grade bentonite, offering 500–600% absorption, strong odor control, low-dust performance, and long-lasting clumping stability, providing a clean and comfortable experience for cats and convenience for their owners.

Export

In our export processes, we adopt a professional approach at every stage, from logistics to customs procedures, ensuring a smooth journey for our products. Thanks to our proximity to neighboring countries and strategic location, we efficiently deliver the best products and services to our business partners and pet owners across different regions, while continuously expanding our international trade network with the support of our expert team.

DISTRIBUTION & PRIVATE LABEL

At Mioli, we not only export our premium cat litter internationally, but we also offer distributorship and private label opportunities both locally and globally. Our expertise allows partners to create their own brand or present Mioli products under their label. We develop high-quality, reliable formulations tailored to each client's specific market needs, ensuring our solutions meet unique demands. Our cat litter reaches clients worldwide safely and efficiently, consistently exceeding expectations.
